Discover Odsherred

Visit the findingsite of the Sun chariot

The site in Trundholm Mose tells the story of life and landscape in change, sun worship and sacrifices dating back to the Bronze Age around 3,500 years ago.

The place is now open to guests all year round. Enjoy the great relief close to the stone, where the sun chariot appeared under a plow in 1902.

A beautiful walk.

PARTNER

What does it mean?

Unesco Global Geopark Odsherred

Sanddobberne Camping is a partner in Geopark Odsherred.
The business is therefore based on the values of the Geopark:

Landscape, cultural history, art and food crops

The campsite's location at the bottom of Vejrhøj, Zealand's 3rd highest point, places us in the middle a historic ice age landscape.

The fascination with the landscape and the interest in history behind it, gives us a deep love for Odsherred - and we want to share this with you guests.
